Subject: RE: Wapato H.S. Meeting Room Date
Date: Tuesday, March 05, 2013 9:26:24 AM

Loretta: Thanks for following up on this. I can't do Friday, March 22, but can do Monday, March 18. Would that date work for others? Or do we have to find another week?

Subject: Wapato H.S. Meeting Room Date

Greetings,
We have two dates available at the Casino for our follow up meeting: Monday, March 18th or Friday March 22nd. If neither of these dates work, please let me know and I can secure another location. Please let me know as soon as possible if these dates can work. I know your working on the draft letter.

Also, just a comment related to the letter from WHS's attorney regarding connecting the District to the "material".

This whole issue came about in response to an anonymous tip connecting the debris directly to the school demolition project. See page two of the attached report. (Gretchen, you may have already spoken with this individual.) And the Groat Bros. written statement also connects the debris from the school construction project.

If in drafting the letter if we need to attache our YN Codes we can provide them. EPA folks you have the asbestos report, I assume that can be passed on to the school district.

Once we can settle on a date, I will send out an e-mail about the meeting.
Let me know how I can help.
Thanks
